
Final Exam

MB 103 Introductory Topics in Microbiology

Honor pledge: *"I have neither given nor received unauthorized aid on this test."*

Signed : _____ Date : _____

Name : _____

Instructions. You may use any class notes or the web to complete this exam. You may *not* consult with other students or anyone else, you *must* find the information and answer these questions yourself. Bring your completed exam to the scheduled final exam time and place, or send it to me electronically at james_brown@ncsu.edu .

1. List 2 services provided by the CALS Career Services office. (½ point)

2. Describe 2 examples of violations of academic integrity. (½ point)

3. What are the University's sanctions (there are more than one!) for academic dishonesty? (1 point)

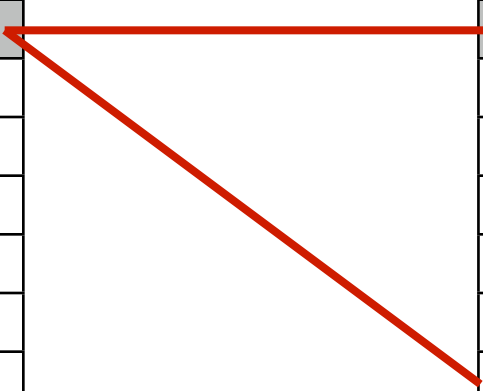

-
4. _____ If you need to see your advisor for registration advice and to release your registration hold, your best bet is to... (½ point)
- A. keep dropping by his or her office until you find him/her in
 - B. keep phoning until they answer
 - C. call or email and make an appointment
 - D. blow off your advisor and talk to the Undergraduate Coordinator instead
 - E. Who needs advice? Finesse your release out of someone in the Micro office with a plausible-sounding story.
5. What is the procedure for adding a German (FLG) minor? (½ point)
6. Your friend, a fellow first-semester freshman Microbiology major, is not doing well in Biology 181 this semester. In fact, he ends up failing the class. Can he repeat the class next semester (Spring)? What does he need to do in order to remove the first (failing) grade in his GPA calculations? (½ point)
7. This friend goes on to get a D in BIO 181 when he takes it again. Would he have to take the class over again? If so, what would he need to do in order to do this? If not, can he get this grade, too, removed from his GPA calculation? (½ point)
8. Your friend seems to be having more than the usual difficulty with the transition to university life, and as a result ends his freshman year with a GPA of 1.7 after attempting 15 credit hours in both his fall and spring semesters. Will your friend be suspended, or allowed to continue next fall semester? (½ point)
9. This friend decides to take two 3-credit courses in summer school. To your astonishment, he gets an A+ in one and an A- in the other. What will his TOTAL GPA be at the end of the summer? (1 point)

10. What procedure do you follow to drop a course during the 4th week of classes, if you will drop below 12 credit hours? (½ point)

11. What classes can be used in the Microbiology curriculum to fulfill the Cell/Physiology requirement? (½ point)

12. Match the following Faculty to the undergraduate courses they teach. Note that some may teach more than one course, others may not teach *any* of the listed courses (¼ point each = 2 points):

Faculty	Course
Jim Brown	MB 103 - Introductory Topics in Microbiology
Hosni Hassan	MB 351 - General Microbiology
Mike Hyman	MB 354 - Inquiry-guided Microbiology Lab
Mark Keen	MB 411 - Medical Microbiology
Scott Laster	MB 414 - Metabolic Regulation
Jon Olson	MB 441 - Immunology
Tim Petty	MB 451 - Microbial Diversity
Frank Scholle	MB 461 - Virology
Mike Sikes	MB 480 - Topical Issues in Microbiology

13. Go to the NCSU Study Abroad web page, and use the "Program search" link to search for a study abroad that interests you. List the name, location, and date (if relevant) of this program (½ point):

14. As you probably remember, I serve as your advisor only for your first semester (with a few exceptions). So... (¼ point each):

A. Who is your advisor now? _____

B. What is their email address? _____

C. Where is this person's office? _____

D. Tell me one thing about this person you find interesting:
