Attention college students: Are you interested in a career in the natural sciences?
CANCAS is a community of undergraduate students and faculty advisors from institutions all around North Carolina. We may be from different institutions and student organizations, and perhaps even different disciplines of science and math, but we have a lot in common. By sharing our common interests, we can support each other in our research and career pursuits.

The Collegiate Academy of the North Carolina Academy of Science is looking for members and Campus Liaisons to increase CANCAS awareness.

Campus Liaison Duties Include:
- Encourage participation of their student bodies and organizations with CANCAS.
- Stay in touch with CANCAS through News Notes, Facebook and attendance at the Fall Workshop and NCAS Annual Meeting.
- Recruit new student members from their home institution.

If you are interested in joining and/or serving as a Campus Liaison for CANCAS contact Dr Erin Lindquist, erinlind@meredith.edu

For more information visit: www.cancas.org or find us on Facebook!
